Education

Sinhgad College of Engineering(SCOE) PUNE   graduation date: 2021-2024
BE in Computer Engineering| *GPA: 8.9/10*

Experience

CodeClause   Jan. 2023 - Feb . 2023
Web Development Intern   *Js,React.js,Git*

- Developed responsive and interactive forms website using React JS .
- react usestate feature for agility,Implemented the concept of react hooks

Calibers Infotech   Jun. 2021 - Aug. 2021
Web Development Trainee   *html,css,js,bootstrap,php*

- Deep dived into the basics of html,css,js,php
- Designed frontend using pure html,css and js,Hands on Experience on php,mysql

Projects

E-Kart Website   Tech Stack
Developed e-commerce platform for seamless online shopping experience   *html,css,js,React.js,firebase,Node,Git*

- Utilized React's cutting-edge features such as useState, useEffect, useContext, and custom hooks to build interactive user interfaces, manage component state, and handle side effects efficiently. .
- Integrated Firebase services including Firestore for real-time database functionality, Firebase Authentication for secure user authentication

Integrated Agritech System for Crop Allocation and Yield Enhacement   Tech Stack
Implement ML Algorithms for Crop Allocation   *Php,html,css,js,Mysql,phpmyadmin*

- Led the development of an Integrated Agri-Tech System utilizing advanced machine learning algorithms for predictive crop allocation and yield optimization.everaged precision farming techniques to enhance agricultural productivity and sustainability.
- Implemented GET and POST requests, optimizing communication between front-end interfaces and backend servers. Implemented user authentication and authorization mechanisms to ensure data security and privacy. Employed CRUD operations to enable users to Create, Read, Update, and Delete data entries within the system.

HealthCare Management System   Tech Stack
Developed HealthCare Management System for Patients   *PHP, MySQL ,HTML, CSS*

- • Utilized PHP and MySQL to develop a Health Care Management Website, enabling patients to access healthcare resources within specific hospitals. Leveraged PHP for server-side scripting and seamless database interactions with MySQL, ensuring efficient resource availability tracking and enhanced user experience.

Skills

Languages:
    C++,Java,React.js,Html,Css,Js,Python

Technologies & Tools:
    Sql,Git,Github, Dsa[solved 150+ DSA Problems] ,OOP,Object Oriented Design

Certifications:
    TCS-ION ,SAP 01 OVERVIEW Udemy :-Master React.js.

Leadership and Volunteering

CO-General Secretary-[SDC]   Jun. 2023 Nov.23

- Hosted NLP Session,Lead the technical Magazine committee
- Developed Soft Skills :Good Team Player and Leader,Innovative Thinking Ability,Good Communicator

GCESA -Secratary Computer Department   Jun. 2020 Aug.2021

- Event Manager at the "TECHNOBRAIN" Tech Fest of the institute
